BRILLIANT COMMENCEMENT.

The year opens with a most glorious galaxy of Prizes, well calculated to gladden the hearts and excite the ambition of all lovers of well-filled purses-and the thousands and tens of thousands distributed in Capitals among our patrons during the present year, give an earnest of our future success which cannot be mistaken. During the month of January there will be drawn five Capitals of 30,000 dollars eoch, in all of which Schemes there is an average of 13 prizes in each 25 tickets, consequently the risk is trifling, while the chances are very great.

We think it the duty of our friends to

avail themselves of the valuable information which is now laid before them-and will only add our urgent entreaties for early application, as all disappointments have arisen from delay.

Write with a full confidence that your orders will be punctually and promptly attended to by

cons. Licentiate of Apotherary's Company, fellow of Bolt Coart Society Surgen to the Reyal Union Femical Association, Lancaster Philo, Waterloo Bridge, and personal pupil of Guy's and St. Thomas's Hospitals, London.

This valuable medicine, the result of twenty years' experience and unparralleled success in the extensive and highly respectable practice of the proprietor, patronised by the faculty and nobility, is now introduced to the notice of the American public, at the earnest solicitation of a number of gentlemen of long and high standing in the profession. It is hoped, as a preliminary step, to check the evils and fatal consequences arising from the use of the numerous deleterious noatrums foisted upon the public by the aid of fabricated proofs of miraculous cures, and other frauds, by a set of mercenary, unprincipled pretenders, so totally ignorant of medical science that it is impossible the monstrous delusion can any longer go down with the intelligent people of this country. These pills, mild and agreeable in their nature, should be kept in every family in cases of sudden illness, for by their prompt administration, chole ra, cramps, spasms, fevers, and other alarming complaints, which too often prove fatal, may be speedily cured or prevented. In fact, all those who value good health should never be without them. They are sold in packets, at 50 cents, \$1, and \$2 each, by every respectable druggist, bookthem. They are sold in packets, at 50 cents, \$1, and \$2 each, by every respectable druggist, bookseller, and vender of medicine in the United States seller, and vender of medicine in the United States and the Canadas, with copious directions, together with testimonials of professional ability from the following eminent gentlemen; Sir Astley Cooper, J. Abernethy, Jas. Blundell, M. D. W. Back, M. D., J. Aston Key, A. Frampton, M. D. and numerous others. The originals may be seen in possession of the general agent, by whom the medicine is imported into this country, and to whom all applications for agencies must be made.

JONES'

PATENT COTTON GIN. HIS Gin can be made double, or single. It made double, they reduce labor, and gin just double, the quantity of cotton over the single cylinder Gin, no other knd having been in use prevous to this patent; and whether single or double, they are found to improve the quality of the cotton, by more perfectly cleaning it. They can be made to contain from 20 to 160 saws in a stand, and whether small or large, one hand will be sufficient to attend them. The Gins have mechanical feeders and them. The trins have mechanical leeders and hoppers attached to them, which free the cotton from leaves, trash, dirt, &c. before it can reach the saws, and by the thorough hackling operation it receives from the feeders, which make two revolutions to one of the saws, it is almost in a half product to before it descends to the saw. gined state, before it descends to the saw By a very simple arrangement of a screw to each set of gaates, on which the hoppers rest, and through which the teeth of the feeders pass, they can be made to feed slow or fast to suit the condition of the cotton at the time. When made double, the saws are placed on two sets of cylinders and turn upon each other in opposite directions, and are cleansed by two sets of brushes that have four revolutions to one of twe saw. The two cylinders can be detached so as to enable the planter to run one or both at pleasure, although embraced with feeders, &c. in one stand. The whole is put in operation with a drum and band, as in the ordinary Gin, and may be propelled by horse, steam, or water power. It may also be propelled by iron running gear. The force required to work it, is about the same as that necessary to move an equal number of saws in the common Gin. This Gin has been put in operation in New Orleans for two or three weeks, and its success tested in the presence of a large

and its success tested in the presence of a large number of planters, merchants and others, and received their general approbation

Several gentlemen have been so kind as to give the Patentee their written opinion respecting the merits of the Gin. A number of others could be added, but the following are deemed sufficient:

From his Excellency Gov. While of Louisiana.

New Orleans, Feb. 27, 1837.

Dr. A. Jones—Sir, In reply to your enquiry, what I think of your improved Cotton Gin, I have to say, that I saw it work on Saturday the 25th inst. and was very much pleased with its performance. The mere fact of its self-feeding, seems to me to The mere fact of its self-feeding, seems to me to be a very valuable improvement; and besides, the quality of the cotton, as it comes out of the process, appeared to me to be better and cleaner than from the common Gins in use, and that it saves considerably in labor. Respectfully, &c.

E. D. WHITE.

From Mr J. Compton, a wealthy planter, resident in the Parish of Rapide, Louisiana.

Dr. Jones—Dear Sir, I have examined your Patent Cotton Gin, with feeders, &c. And have

tent Cotton Gin, with feeders, &c. And have seen it in operation, and approve of it so highly, that I have taken the liberty of ordering one for my plantation in time for the next crop.

Yours respectfully,
New Orleans, Feb. 28, 1837.

From Mr. A. Longer, an experienced and eminent Cotton Broker of New Orleans.

New Orleans, Feb. 28, 1837.

Dr. Jones - Dear Sir, in answer to your note of

Dr. Jones -Dear Sir, in answer to your note of this morning, I will state, that I have carefully examined your new Patent Cotton Gin, and have cotton growing States, will be sold on reasonable.

Signal it for superior to those generally used in this terms. found it far superior to those generally used in this terms.

State it cleans the cotton much better, and gives it a much better appearance. I hope, for the good of the country, it may become duly appreciated. Yours ancerely.

A. LONGER.

From Mesans. Forestall, High & Co. Commission Merchants.

Merchants.

Dr. A. Jones—Dear Sir, we have examined the sample of cotton left with us, cleansed by near Patent Cotton Gin, and also the cotton in its implementation of the same greatly superior to the average samples which have come under our observation this or preceding sessons.

Very respectfully, your ob't servants, FORSTALL, HIGH & Co.

Bew Orleans, March 1, 1837.

Fram Col. Harris Smith Evans, a planter of Will cox county; signed also by Dr. David J. Means, a plaster of Green county, and Mr. Wm. C. Clifton, a planter of Dallas county, all of Ala. Dr. Jones—Bear Sir, in reply to your inquiry concerning to say to you, emphatically, that we consider it a most decided and valuable improvement. We have examined it carefully and seen it in successful operation, and we feel no healtatancy in recommending it to the attention of planters generally. Most respectfully yours, &c.

HARRIS SMITH EVANS, DAVID J. MEANS, WM. C. CLIFTON.

New Orleans, March 7, 1837.

P. S.—As a further testimony of my confidence in the success of your Gin, you will please order two Double Gins of 80 saws in a stand cach, for my plantation, and oblige yours truly,

H. S. Evans.

before bought two new Common Gins, that he would likewise have ordered one or two of the Patent Gins for his plantation.
From Mr. H. F. M Kenna, of the house of Bran-

der, M'Kenna & Wright, of New Orleans.

Dr. A. Jones—Dear Sir, in reply to your note, accompanied by a specimen of the cotton, ginned by your Patent Gin, I beg leave to observe, that it exhibits a decided improvement on the usual process of ginning; delivering the staple uninjured and free from hap or trash, clean and of good color, thereby giving the article an additional relations. lor; thereby giving the article an additional value.

These favorable impressions of the advantages of your Patent Gin, have been confirmed by subsequently witnessing it in operation. The utility of the double cylinders and saving of labor, will be readily presented and property to the double cylinders. readily perceived and properly appreciated by the

ritelligent planter.

Feeling a deep interest in the success of all improvements tending to benefit the important staples of our country, I trust that yours will neet with

of our country, I trust that yourself the encouragement it justly merits.

Very respectfully, your ob't serv't,

II. F. M'KENNA. New Orleans, March . 6, 1837.

rom Mr. G. Senior, a Machinist of New Orleans. Dr. A. Jones-Dear Sir, in answer to your inquiry of my opinion of your Patent Cotton Gin, I beg leave to state, that I was fifteen years engaged in the cotten factories of Manchester. England, and during four years, of that tin c. I was foreman in the house of Messrs. Lewis, Williams & Co., and near five years spinner in the house of Messrs. Sandford & Greene. I have seen your Cotton Gin in eperation, and have exemined the cotton ginned by it, and pronounce it better clear-sed, and the staple less injured, than any cotten that ever came under my observation. It is completely ready for the breaker without the aid of the ry of my opinion of your Patent Cotton Gin, I pletely ready for the breaker without the aid of the blower, and would, therefore, save the first process in manufacturing the article. I consider cotton cleansed by your Gin, would command from one to two cents on the pound more than the average crops brought into the Manchester market, and

Cleansed by common Gins. Yours, very resp'ly.

N. Orleans, March 9, GEGRGE SENIOR.

Dr. Jones- Dear Sir, in answer to your inquiry respecting my opinion of your Patent Cotton Gin I have to state, that I have been engaged in put ting up the Carver Cins for planters on Red River, and that I have seen your Gin in operation, and have examined the quality of the cotton produced by it; I consider it equal if not superior to the Carver Gins: in addition to which, I think your feeders a decided improvement, and by the aid of which, the quality of the cotton cleansed appears much improved over that produced by the cotton cleansed appears much improved, over that produced by the common Gins. Yours &c. S. BENNETT.

New Orleans, March 10, 1837.

In addition to the above, the Patentee will refer

planters to the following gentlemen, who have either seen the Gin in operation, or have examined samples cleansed by it: Messrs. N. & J. Dick Thomas Barrett & Co., Hagan, Niven & Co., Lambeth & Thompson, Martin, Pleasants & Co., Hermann, Briggs & Co., Wm. L. Flower; Eullitt,

Hoe, & Co SCALE OF PRICES.

DOUBLE GINS.
For a Double Gin of 80 saws or more on each cylinder, making 160 saws in the stand, with feeders, bands, &c. at \$6 For a Double Gin of 60 saws on a cylinder.

or 120 saws in the stand, feeders, &c. at \$6 per saw, or For do, of 40 saws on do, or 80 saws in a 720 00 stand, at \$6 25 per saw, or For do. of 20 saws on do. or 40 saws in a 500 00

stand, at \$6 50 per saw, or SINGLE GINS. 260 00 For a Single Gin of 80 saws or more, with one set of feeders, bands, &c. at \$6 per saw, For do. of 60 saws, with feeders, &c. at 480,00

\$6 50 per saw, For do. of 40 saws, with feeders, &c. at 390,00 \$6 75 per saw, For do. of 20 saws, with feeders, &c. at 300,00

\$750 per saw, 150 000 Extra teeth where desired, for feeders, supplied at 40 cents each; the number of teeth being about equal to the number of saws. One set of feeders, It is considered however, will wear out two or three sets of saws Extra saws supplied at 80 cents each.

The Gins ordered will be delivered to the agents, of planters in any of the sea port towns of the cotton planting States, at the above prices, the agents paying the freight on the same from New York,

and becoming responsible for the amount of the Gin.
It is desirable, when planters give orders for Girs,
they should accompany them with their views in regard to the arrangement of saws, breasts, brushes, &c. It is found they differ in opinion. Some, desire-saws of larger diameter than others. The most common size is 9 or 10 inches; but some wish them 12 inches. Some wish 5 or 6 rows of brushes on an axle, while others do not want more than 4 at most. Some wish saws with 8 or 9 teeth to the inch. while others want 10 or 11. With so much discrepancy, we prefer they should, at the time of giving orders, turnish a statement of their wishes, and the manufacturerers can fulfil them in every particular. Where it is left to our discretion, we shall make them on the most modern and approved plan. An order can be executed, from the time it is received, in the space of eight or nine weeks and the Gin in that time placed in the hands of the factor. To be in time for the next crop, all orders ought to be in the hands of the manufacturers by the first or middle of May; except for plantations where they are late in commencing to pick or gin
